**COMMITTEE ADOPTS  
NEW PENSION BILL**

SENATE COMMITTEE REJECTS  
DOLLAR A DAY ACT BUT  
ACCEPTS SMOOT  
PROPOSAL.

**AFFAIRS AT CAPITOL**

Minority Report on Stephenson Case  
Will Be Made Later in Week  
—Reciprocity Treaty With  
Cuba.

[BY ASSOCIATED PRESS.]

Washington, Feb. 12.—The Sherwood so-called "dollar a day" pension bill was rejected today by the Senate committee on pensions and another measure which would involve an annual expenditure of twenty-two million dollars proposed as a substitute by Senator Smoot of Utah, was adopted.

Senators Brown of Nebraska and Curtis of Kansas, gave notice that in the senate they would press the Sherwood bill as a substitute for the Smoot bill.

**Will Delay Vote.**  
The minority report of the senate committee on privileges and elections adverse to Senator Stephenson of Wisconsin probably will not be filed in the Senate until Senator Kern returns to the city late in the week.

The report will urge the senate to assume jurisdiction over the primary and thus "take a stand against the sale of seats in the United States Senate."

It also will be held that the enormous primary expenditures have not been satisfactorily explained.

**New Cuban Treaty.**  
President Taft it was reported today has begun the negotiation for a new reciprocity treaty with Cuba.

Secretary of state Knox has held a number of conferences with Signor Rivero the Cuban minister as to the drafting of a new convention especially in connection with the duties on sugar.

The Cuban minister declined today to discuss his activity in this regard, but it is understood that Cuba expects present sugar duties to be diminished for a readjustment of the preferential rates given the island.

**The Money Trust.**  
Senators Lea of Tennessee and Kenyon of Iowa, the former a progressive democrat and the latter a conservative republican, today framed a joint resolution proposing an inquiry into the so-called "money trust" by a joint committee of the senate and house.

The house democrats in caucus already have decided for an investigation by the regular committee of the house and it is doubtful if they would accept the new proposal.

**The Ray Incident.**  
The alleged political influence of Major Heccher Ray, the army pay master, who is declared to have enjoyed frequent changes of station and immunity from various troubles because of the influence of President Taft, was again a subject of investigation today before the house committee on expenditures in the War Department.

**Made Record.**  
Paymaster General Whipple testified that Major Ray had established a record in the service for frequent changes in station. In fifteen years he had been successively stationed at eighteen points whereas the average assignment of paymaster at any station is between three and four years.

**Taft's Letters.**  
The letters from President Taft to General Whipple were read, suggesting that Major Ray be disciplined as any officer but advised against court martial.

**Not Economy.**  
"Why are you only when the old soldier is involved?" demanded Senator Kenyon of Iowa, in the speech in the senate today in advocacy of the Sherwood bill, passed by the house.

Senator Kenyon pointed out that congress had raised the salaries of its members and the president; entered into an expense of millions of dollars for the Panama canal and had even reduced Robert E. Peary on rear admiral's pay for discovering "something known as the North Pole which no one cares anything about."

**Increased Cost.**  
Mr. Kenyon said the cost of living was much for the soldier as for anyone else. He pointed out many ways in which the expense of administering the government could be lessened. In closing he said, "I have no patience with the assertion that pension legislation is charity legislation. There was an implied contract with this government when these men marched away and that contract was that when they needed help from the government they should have it."

**Went for Country.**  
"They did not go to war for the \$13.00 per month in depreciated currency which was worth in gold but \$3.00. They did not place blood against gold. They closed the door of opportunity just when the tenderest and most sacred associations of life were forming and never thought of reward."

**ORDERS BANK BOARDS  
TO MEET EXAMINERS**

Comptroller Murray Issues Orders for Boards to Meet With Examiners Upon Each Examination.

[BY ASSOCIATED PRESS.]  
Washington, Feb. 12.—Comptroller of the Currency Murray, today ordered the boards of directors of national banks that hereafter they shall meet the federal bank examiners at every examination to discuss the affairs of the institution, especially their loans and discounts.

**DIPLOMATIC PHASES  
OF TRIP DISCUSSED**

Secretary Knox Confers With Taft on Way to Newark Regarding South-ern Journey.

[BY ASSOCIATED PRESS.]

Washington, Feb. 12.—After conferring early today with his assistant in the state department in regard to his forthcoming Central and South American trip, Secretary Knox joined President Taft and accompanied him on his trip to Newark, N. J., taking advantage of the railway journey to discuss further with the President the diplomatic phases of the journey. He will start for Florida not later than Saturday.

**Busy Day for Taft.**  
Washington, D. C., Feb. 12.—At eight o'clock this morning, with a busy day before him, President Taft left Washington for New Jersey and New York. The President's first stop was to be Newark, N. J., where he was to be the guest at luncheon of the former governor Franklin Murphy.

During the afternoon he will go from there to Orange, N. J., and early in the evening he will reach New York where he was scheduled at a number of banquets.

The principal function he is to attend is the Lincoln Day banquet of the New York Republican Club, where it is expected he will make an address of considerable significance in his political campaign.

The Retail Dry Goods Association and the Graduate Club will have him as their guest during the latter part of the evening, before he starts for Washington.

**Arrive at Newark.**  
Newark, N. J., Feb. 12.—President Taft and party arrived here early this afternoon over the Pennsylvania railway from Washington. A crowd of several thousand greeted the executive at the station where he was met by former Governor Franklin Murphy, host to the president during his stay here.

**WILSON OPENS BOOM  
IN WEST AT CHICAGO**

New Jersey Governor Urges Initiative and Referendum and Predicts Democratic Victory.

[SPECIAL TO THE GAZETTE.]

Chicago, Feb. 12.—Governor Woodrow Wilson of New Jersey fired the opening gun in his campaign for the democratic presidential nomination in the central states in an address delivered today before the Lincoln Club by reiterating his belief in the initiative and referendum and predicting democratic victory at the polls in November.

Six hundred representative citizens attended the Lincoln birthday luncheon at which Governor Wilson was the guest of honor.

"I believe in the initiative and referendum because they will give the people real representative government," said Governor Wilson.

"They are state and local questions and are designed to give the people the power in localities where special interests have obtained control of public affairs. I have never heard them suggested as a substitute for representative government."

"In fact they will safeguard the people in preserving representative government wherever and whenever it is necessary. I never have favored the recall of judges because they are not administrative officers of the law."

**WOMAN MEETS DEATH  
IN BURNING HOUSE**

Mrs. Annie Runge Dies in Fire Which Destroyed Home Near Milwaukee Early Today.

[BY ASSOCIATED PRESS.]

Milwaukee, Feb. 12.—Trapped in a burning five-room cottage at Hawley and Johnson roads early this morning, Mrs. Annie Runge, aged forty-five, was burned to death while her husband, John Runge, aged fifty, unable to help her, stood in the deep snow outside and watched her die. The fire started when a lamp which Runge had lighted exploded, taking a trunk with him, but Mrs. Runge for some reason was unable to follow him.

**SNEED JEWELS HELD  
BY CUSTOMS OFFICER**

Gems Worth \$32,000 Held in Shipment to Wife of Banker on Trial for Murder.—Detained at Canadian Border.

[BY ASSOCIATED PRESS.]

Crookston, Minn., Feb. 12.—Jewels to the value of \$32,000 shipped by express by A. G. Boyer, Jr., to Mrs. Lona Sneed, wife of J. B. Sneed, a wealthy banker of Amarillo, Texas, on trial for the murder of Captain A. G. Boyer, Sr., have been seized by the customs officers at St. Vincent, Minn., on the Canadian border. The gems are being held by the customs officers. It is said, because a certain document, the nature of which has not been made known but which, it is said, would complete the evidence that the jewels were purchased and owned in the United States is lacking.

**VISCOUNT HALDANE'S  
VISIT TO GERMANY  
RUMORED FRUITLESS**

Rumors About English Secretary of War Do Not Credit Visit as Successful.

[BY ASSOCIATED PRESS.]

Berlin, Feb. 12.—Reports that the mission to Germany of Viscount Haldane, British secretary of war, had been a failure, circulated on the house today and contributed to the prevailing weakness and pessimism.

The rumors, however, were not justified as the situation will be cleared up only after Viscount Haldane's conference with his colleagues of the British ministry, with whom rests the decision as to whether definite negotiations with Germany are to be begun. The German foreign office today is apparently well satisfied concerning the situation.

**PROMISE OF PEACE  
MADE BY INDIANS**

Yaqui Indian Leaders Assure Madrazo Government They Can Quiet Rebellious Tribesmen.

[BY ASSOCIATED PRESS.]

Campes, Mexico, Feb. 12.—Yaqui Indian leaders who are friendly with the Madrazo government, report that they will be able to prevail upon the discontented ones in the tribe to accept the government's offer of land and set the town.

Most of the hostile Indians are still in the Huacabaca mountains and no recent negotiations are reported. Although the neighboring state of Sonora is fairly infected with the germs of unrest and revolt, peace for most part has prevailed in Sonora. So far as is known there is not a great deal of anti-Madrazo feeling in the state, leading Mexican citizens apparently desiring to give Madrazo a chance to work out his plans.

It is believed that conditions similar to those in Sonora might now be prevailing, but for the summer expedition of Lorenzo Arvizu and those who have sought to overthrow the Madrazo government.

**LANGFORD DEFEATS  
CHICAGO PUGILIST**

Gets Better of James Barry on Points in Twenty Rounds in Bout at Sidney Today.

[BY ASSOCIATED PRESS.]

Sidney, Australia, Feb. 12.—Sam Langford, the heavyweight American pugilist and heavyweight champion of England, today defeated James Barry, the Chicago heavyweight on points in a match of 20 rounds. The fight took place in the stadium in the presence of a large audience.

Springfield, Ill., Feb. 12.—Senator Henry Cabot Lodge of Massachusetts and Representative Frank H. Willis of Ohio came to Springfield today to speak at the annual banquet of the Lincoln Centennial association.

**HUNDRED MILLION IS  
COST OF COLLECTION**

J. Pierpont Morgan Has Spent Fabulous Amount in Art Treasures Which Will Be Bought Here.

[BY ASSOCIATED PRESS.]

Washington, Feb. 12.—The recent announcement that J. Pierpont Morgan would bring a portion of his art collection from London to New York has laid open the discovery that the financier has invested a sum estimated at more than one hundred million dollars in art treasures.

This collection is said to consist not only of paintings of various kinds and a collection of wide range and enormous value of ceramics, porcelains, bronzes and antiquities of almost every form and conception of every age from barbarism and civilization.

Mr. Morgan's London collection is estimated at more than twenty hundred million and his New York collection is valued fully twice as high.

Paintings and art objects which he has loaned to museums as well as the estimated fund of ten million and an equal sum he has given away is not an excessive estimate on the value of the art objects he has given away. Many hundreds of minor objects each costing from a hundred to tens of thousands of dollars are to compose the bulk of the collection value.

**MANY MINERS DYING  
IN A BURNING MINE**

Between Twenty and Thirty Men Trapped in Coal Mine in Silecia Last Night.

[BY ASSOCIATED PRESS.]

Antalshuette, Prussia Silecia, Feb. 12.—A large number of casualties caused by a fire which broke out in one of the pits in this coal mining center last evening are reported.

Seven corpses of miners have been brought to the surface and the authorities say at least twenty more men in the pit when the fire broke out is now known but all except those in the immediate vicinity of the shaft at the bottom were cut off from escape and almost certainly dead.

**LACK OF ORGANIZED  
REVOLT IN MEXICO**

Considerable Brigandage in Northern Mexico, but no Organized Revolt.

[BY ASSOCIATED PRESS.]

Washington, Feb. 12.—Brigandage still exists to a certain extent in Durango, north Mexico, but there is an absence of organized revolutionary movement, according to state department advices received today.

There is revolutionary activity near Torreon at Vera Cruz on the southern coast and Matamoros in the state of Coahuila, and is reported to have gone over to the rebels.

In the south the federal troops seem to be gaining ground, having won several victories during the past few days.

**Rebels Defeated.**  
Juarez, Mexico, Feb. 12.—Rebels in Chihuahua commanded by Brazilio Hernandez, were defeated at Mogul, west of Chihuahua, yesterday by federal troops. The information which comes from government sources is that many were slain on both sides and that the federalists captured many prisoners.

Captain Salgado, of the government troops, is reported to have been killed. Hernandez and his band are said to be flight.

**DUCHESS LOSES CASE;  
MUST PAY BIG DUTY**

Duchess of Manchester Must Pay \$300,000 Legacy Duty on Fortune Left by Brother.

[BY ASSOCIATED PRESS.]

London, Eng., Feb. 12.—Legacy duty amounting to \$300,000 must be paid on the estate of the late Conyngham, Duchess of Manchester, according to a judgment delivered in the chancery division of the high court of justice. The suit was brought in connection with the fortune inherited from her brother, Lord Conyngham, who was a daughter of Antonio Yzangado Valle, of Louisiana and Cuba. Fernando left two million dollars to the Duchess and although the money was never brought to England, the British revenue authorities claimed legacy duty, which demands was resisted by the executor of the Duchess' will.

At the first hearing the attorney for the Crown argued that the British government had the right to collect a legacy duty on personal property situated abroad belonging to any one who died, having been domiciled in Great Britain. The court today upheld that view and gave judgment to that effect.

**Madison, Wis., Feb. 12.**—Questionable practices in the show ring scored by leading live stock authorities of state.

Madison, Wis., Feb. 12.—Questionable practices in the show ring are scored in interviews with leading authorities of the Wisconsin college of agriculture, all of whom have had practical experience with livestock shows. It is said that a thorough investigation may follow the present dissatisfaction with conditions in the show circles.

Dr. A. S. Alexander said the public, and especially interested parties, should be excluded from the ring while judging is in progress. He protested against allowing stock attendants to be attired in special uniforms bearing the name of the stock farm or owners which they represent, and against attendants, superintendents or marshals conveying with the judges while they are selecting the prize winner.

A stricter censorship and elimination of the inferior animals is also advised. The horns of some show horses are often rasped into proper shape and appearance and the fact hidden by an application of hoof dressing or varnish. Dr. Alexander calls this a violation of showing ethics.

Prof. George C. Humphrey, animal husbandry department, believes that a corps of attendants should have charge of the animals in the ring so that the judges would not know whose stock was being exhibited. Exhibitors attempting to prejudice the judges' opinion should be barred from the ring.

Prof. J. G. Fuller, who has made a personal investigation of showing conditions in England, deprecates many of the practices in vogue in the American showing, where, he says, the slogan, "Win at any cost," is too prevalent. He says the presence of the owner is decidedly too evident in the arena.

Frank Kleinheinz, sheep husbandry, says that honor in the showing is perjured by the exhibitor who can hear defeat without kicking or attempting to discredit the judges' decision.

J. L. Torney, animal husbandry, said that dishonest practices include showing animals out of class, misrepresenting their ages, exhibiting purebreds under fraudulent pedigrees, entering grades under the pedigree of purebreds and vice versa, etc.

**ARMY MANEUVERS ARE  
BEGUN IN PHILIPPINES.**

Most Extensive Maneuvers Ever Held by United States Troops in Islands Inaugurated Today.

[SPECIAL TO THE GAZETTE.]

Manila, Feb. 12.—What is planned to be the most extensive war maneuvers ever indulged in by the United States troops in the Philippines were inaugurated today in the Department of Luzon. The plans drawn up for the operations divide the available troops into two forces consisting of 2,000 men each. One of these armies will have its base at Stotsenberg camp, Pangasinan, to the north of Manila, and probably will carry out an attack on the city of Manila in which the other army will have its base and will act on the defensive.

**CONFERENCE WITH GOVERNOR AS  
TO A SPECIAL SESSION SOON**

Madison, Feb. 12.—Attorneys for the state in the waterpower case conferred with the governor this afternoon with the question as to the proper course to pursue with respect to the special session.

**ROOSEVELT IS TO ADDRESS  
OHIO CONVENTION WEDNESDAY**

Columbus, Ohio, Feb. 12.—Former President Theodore Roosevelt will address the delegates of Ohio's fourth constitutional convention Wednesday, Feb. 21. The former president accepted an invitation in a letter received today by C. H. Galbreath, secretary of the convention.

**MANCHUS ABDICATE  
PROVIDING PREMIER  
IS MADE PRESIDENT**

Edicts Issued at Noon Today Proclaim Adherence Cause Under Yuan Shi Kai.

[BY ASSOCIATED PRESS.]

Peking, Feb. 12.—The abdication of the throne of China by the Manchus was proclaimed in an imperial edict at noon today. Another edict declared that the throne accepted of the republic while assured and approved of the conditions agreed upon by Premier Yuan Shi Kai and the Republicans.

The Mongolian princes who have been leaders in the anti-abdication agitation at the court have cabled to Dr. Sun Yat Sen insisting that unless Yuan Shi Kai gets the presidency they will consider themselves entitled to take further measures against the establishment of the republic.

**Dynasty at End.**  
Today's abdication of the Chinese throne by Pu Yi, the child emperor, brings to an end the powerful Manchu dynasty which has reigned in China since 1644. The boy ruler has been on the throne since Nov. 14, 1908, when the Emperor Kwang-Su, his uncle, died.

His father, Prince Chun, was appointed regent and was the chief figure in China for three years. Surrounded by a large number of princes of the imperial clan and Manchu officials with reactionary ideas, the regent was brought face to face with the revolutionary movement in favor of modern reform. He endeavored to placate both parties, but ended by causing general dissatisfaction which led to his resignation on Dec. 6, 1911.

**Imperialists Routed.**  
Peking, Feb. 12.—The imperialist army under command of General Chang Hsun, which has been in contact with the republican troops for some days today was routed with serious loss by the republicans in the neighborhood of Su-Chow An in the province of Anhwei. According to a special dispatch received here today from Shanghai the republican troops mined the ground in front of their entrenchments.

Then, by feinting a retreat they invaded the imperialists to follow over the mined ground and when a large body of them were assembled the republicans exploded the mines.

The imperialist army sustained heavy casualties and lost many of their field guns. General Chang Hsun, the commander, took refuge in a railroad car and escaped toward Su-Chow-An.

**Will Seek to Show  
Taft a Progressive**

Secretary MacVeagh Will Start Taft Boom in Michigan Colorado Republicans.

[BY ASSOCIATED PRESS.]

Lansing, Mich., Feb. 12.—Secretary of the Treasury MacVeagh is coming to Lansing tomorrow to add to the gaiety of the Republican situation by making a speech to the Republicans of Michigan with "What is a Progressive?" for his topic. The secretary will be the guest of honor at the annual banquet of the Zach Chandler Club in this city tomorrow night.

The occasion is designed to mark the beginning of a period in the Taft campaign during which increased effort will be made to impress upon the country that President Taft has been a practical progressive and that progressiveness is the watchword of his administration as much as it is of the antagonists.

**Colorado for "Harmony."**  
Denver, Colo., Feb. 12.—With "Harmony" as their watchword, the republican leaders of Colorado, both standstillers and progressives, gathered here in force today to attend a meeting of the state central committee and a general conference, concluding with a banquet and an address by ex-Senator Beveridge of Indiana. A meeting of the republican editors of Colorado was an added attraction of the gathering. Plans for an aggressive state and national campaign were discussed at the conference.

At the session next fall Colorado will make a complete set of state officers and a legislature that will be called upon to select two United States senators—one for the full term of six years to succeed Senator Guggenheim and one for the unexpected term of two years, caused by the death of the late C. J. Hughes.

**FINISH EXAMINATION  
OF JOHN B. SWINNEY**

Important Witness in Kimmel Insurance Case Undergoes Fire of Questions Without Confusion.

[BY ASSOCIATED PRESS.]

St. Louis, Feb. 12.—Direct cross examination of John B. Swinney was completed today in the Kimmel insurance case in the United States district court in which the identity of Andrew J. White, former convict, who claims to be George A. Kimmel, and Kimmel's insurance are involved. Attorneys for the receiver of the bank at St. Louis, Mich., immediately began a re-direct examination.

Swinney's testimony apparently was not shaken by the cross examination which continued six hours. He was made to repeat almost all of his deposition taken two months ago, apparently with the object of confusing him in the matter of dates.

**Resume Bridge Work:** The concreting of the three pair of spans set for the fourth avenue bridge was completed Thursday noon until this morning because of the severe cold weather. Another steel caisson was sunk this morning and no more concrete work will be done until all the steel work on the substructure is completed. It was necessary to cut a hole through about two feet of ice in order to sink the tube in the river.

**STRONG SERMON ON LINCOLN'S POWER**

REV. T. D. WILLIAMS SPEAKS ON LINCOLN'S GREATNESS AND GOODNESS.

**LINCOLN THE PATTERN**

"Let us Renew Our Pledge of Loyalty to the Tradition That Have Placed Our Nation First."

In speaking on the subject, "Should Lincoln Be Classified With the Great and Good men of Our Country," last evening, Rev. T. D. Williams of the Methodist church brought out the great characteristics of our greatest president and compared him with the men before and after his time. In part he said:

"While the church and schools, civic societies and magazines are pausing amid the rush of our political and commercial life to recall his achievements and reverse his name the question of his comparison with other great men of our country is especially opportune. To answer that question we must enquire into the meaning of terms, and define what we mean by 'great' and 'good'."

"In the first place a great man must have a trained intellect. Great men of history have invariably been men of strong brain power."

"Besides a trained intellect the great man must have a bold judgment, with the power to sort and classify facts and draw conclusions."

"Initiative is also one of the requisite characteristics of a man such as Lincoln. He cannot be a 'two-toe' man, but a pathfinder to break new trails through untraveled jungles."

"Grant's little speech, 'We'll fight it out along this line if it takes all summer,' shows another characteristic which is necessary for the great man to possess—the ability to form his own opinion and stick to it until there are good and sufficient reasons for changing it."

"The insurmountable must be overcome by the really great man. No politician's army crossed the Alps when it had been deemed impossible. Lord Stanford was laughed at when he suggested a railroad over the Rockies."

"In a sentence, a great man must have a trained intellect, bold judgment, power of initiative, independence of purpose, and must defy the most obstinate obstacles."

"A good man must have a devout recognition of God as well as pure morals. None of the bad habits which men begin to harbor with goodness. Moreover the good man will be so forth. Sympathy for the weak is another characteristic which is a requisite for the good man."

"Now the question arises, does Lincoln fit the pattern? Does the pattern fit him? We cannot follow all the details of the pattern; but enough to make a safe estimate of his ability and character."

"In the first place, he had an undeniably mighty intellect. A newspaper during his campaign said that his great breadth and gentleness of intellect composed one of the four reasons why he should be elected."

"Who realized more than his cabinet that Lincoln had a bold judgment?" Several said: "The President is the best of us!"

"Lincoln appears like some Hercules wrestling with the problems of the nation and he conquered them by some means or other."

"As to goodness, Lincoln's virtues would fill a volume. Every line he wrote seemed to breathe a prayer to God for guidance and mercy in the hour of the nation's trial. His pity for the weak and his unspotted life are both shown by his remarkable administration."

"On this Lincoln memorial let us renew our pledge of loyalty to the traditions that have made our nation the wonder of all people of the world. Liberty, unity, right of suffrage, patriotism, democracy, and religion are the traditions which we have left to us."

"Liberty is in our very marrow. The use of a silver dollar cry of the unity of our nation. The right of suffrage makes every man a sovereign. What a depth of patriotism is shown in the sufferings and pain undergone by the men of the past who formed this government and carried it through many great crises. Lincoln called democracy a government by the people, of the people, and for the people."

"No matter what a man may be or what he may have had in the way of education, wealth, or other advantages he should always be able to come to the top and place himself on a level with any man socially. Our country is tending toward a better and more free democracy slowly but surely. Today we put the premium on brain and character, and that is why we are enabled to build such men as Lincoln. In the annals of history the altar of prayer can be traced with even more precision than the law. Lincoln said, 'I remember my mother's prayers and they have always followed me. They have clung to me all my life.'"

"Today we are in the grip of mammon and commercialism. The crowds are assembled. The Sabbath is in the balance. We need upon the whole country the refreshing showers of heaven's anointing grace—giving new authority to religion; putting a new premium on piety; and new enlightenment of morals in our private and public life."

**WOMEN AT CAPITOL VOTE FOR SUFFRAGE**

Straw Vote Taken Among Employees Revealed Small Majority in Favor of Ballot.

Madison, Wis., Feb. 12.—The majority of the women employees in the Wisconsin state capitol are in favor of woman suffrage, according to a poll taken by the Associated Press. Out of 119 women who voted, 62 said they wanted the ballot and 57 said nay. Less than a half dozen refused to cast a ballot for or against the ballot for their sex.

With brazen abandon, a few ardent partisans threw the corrupt process set to the winds and elected women in the good old way. For if anyone thinks all the women have their minds made up on this well known public question, Friday afternoon's voting knocked this idea into the proverbial bucket. Indifference of indifference was displayed by many of the fair voters, and some needed the instant urging of more enthusiastic associates to get them to vote at all. Others needed no second invitation and deplored the fact they could cast but one ballot. Some hesitated to vote under the delusion that they must sign their names. This purposeless proceeding was of course explained away.

Several young women admitted that Miss Jane Adams had converted them to the suffrage cause during her address in the assembly chamber recently. Miss Sylvia Paulchur and Miss Estelle Vorse-for-women here within a week.

The poll reached all women employed regularly in the statehouse offices, including clerks, stenographers, private secretaries and telephone operators.

**INTERMEDIATES TO PLAY ALBANY: TEAM WEDNESDAY**

City Team From Albany Will Play V. M. C. A. Five Here Next Wednesday Night.

On Wednesday evening at the Y. M. C. A. auditorium the renowned intermediate team which has been so successful so far this season, will meet the city team from Albany. The intermediates have been showing up in excellent shape this year and have been improving all season until they are in tip top condition and expect to be able to put up the best game they have played Wednesday if it is necessary. Nothing is known about the Albany team and the boys do not have any idea of what they are going to meet. So there is considerable curiosity as to what will be in store for them and they are ready for anything in their class.

**TYPHOID FEVER CAUSES BROKEHEAD WOMAN'S DEATH**

Mrs. William Bartlett Passed Away at Her Home Sunday Morning—Other Brokehead News.

Brokehead, Feb. 12.—Mrs. William Bartlett passed away at her home in Brokehead on Sunday morning, Feb. 11, of typhoid fever, at the age of 55. **MONITOR COMPANY HAD GOOD EXHIBIT**

Chicago Inter-Ocean Gives Creditable Mention of Local Company's Showing at Recent Show.

Janesville received recognition at the recent exhibition of auto trucks in Chicago by the showing made by the Monitor Automobile Company. Regarding their exhibit the Chicago Inter-Ocean says:

"Though not as much of a manufacturing commonwealth as some of her sister states, Wisconsin nevertheless is 'on the map' when it comes to producing motor trucks, and not the least of her exhibitions at the Automobile show this week is the Monitor light delivery truck, made by the Monitor Automobile works in Janesville."

Two models, one with a carrying capacity of 1,500 pounds and other made to carry 2,000 pounds, are being shown, the exhibit being in charge of J. V. Norling, secretary and treasurer of the company, and who will be in charge of the general sales office in Chicago after the show closes.

"A commercial car of the best quality, absolutely reliable and durable, will not help a man's business unless it is adapted to it," said Mr. Norling yesterday. "Every individual customer's business gets individual attention from us, both before and after we make the sale. Sometimes a slight change in our regular line of body styles will suffice and sometimes a special design is needed to ensure the utmost utility and satisfaction to the user."

Large Number from Local Lodges Attend District Convention This Afternoon.

Between thirty and forty local Odd Fellows went to Beloit today to attend the district convention of the Order which was held there this afternoon and evening. James A. Patterson, president of the convention, presided when the meeting was called to order this afternoon. Election of officers for the district for the ensuing year, committee reports, discussion of matters relative to the ritual and laws of the order, were among various matters to be discussed.

The Beloit lodge was host to nearly a hundred delegates and their wives. The lodge had charge of the initiation work which will take place this evening. A banquet at the Hotel Milton was also among the plans for the day's enjoyment.

**OBITUARY.**

Mrs. Cynthia Rexford. Funeral services for Mrs. Cynthia Rexford were held at three o'clock this afternoon at her late home, 821 North Washington street. The Rev. J. W. Laughlin, pastor of the Presbyterian church, officiated. A quartet composed of Miss Eva Lewis, Miss Lila Sowerhill, Arlene Schmitt and Fred Williamson sang several selections. The pallbearers were George McKee, Stewart Heddles, James Shearer, E. M. Calkins, S. M. Smith, and V. P. Richardson. The body of the dead woman will be taken to Shearburn, New York, for burial. John G. Rexford, her son, left with it late today.

Anthony Frances Hanauka. Anthony Frances, the eleven months old infant son of Mr. and Mrs. A. J. Hanauka, residing at 421 Fourth avenue, died at 10:20 o'clock this morning after a four week illness with a complication of disorders. Up to a month ago the boy had been vigorous and strong. An operation performed upon him last week failed to improve his condition. Anthony leaves behind his grief-stricken parents a little sister, Margaret, who is four years old. The funeral will be held at nine o'clock tomorrow morning from St. Mary's church. The body of the dead boy will be taken to Jefferson at noon and burial will be made in the Roman Catholic cemetery there at nine o'clock Wednesday morning.

**FOUR YOUTHS SOON TO DIE ON GALLOWS**

Unless Gov. Deneen Grants Another Reprieve, Murderers of Fred Guenzlow Will Die on Friday.

[SPECIAL TO THE GAZETTE.] Chicago, Ill., Feb. 12.—Unless Governor Deneen grants another reprieve to the four slayers of Fred Guenzlow, the young truck gardener, who was murdered on a lonely road near Bowmontville on October 20 last, they will be hanged in the Cook County jail here on Friday of this week. The four condemned youths, none of whom are of age, are Edward and Frank Shihawski, A. Philip Sommerling, and Thomas Schmitt. Two of their accomplices, Frank Kinn and Leo Suchanek, both 16 years old, are serving life sentences in prison.

Guenzlow was driving a wagon full of garden produce when the six boys set on him. He alighted from his wagon and was struck down with a club. He pleaded for his life on his knees, because he had a wife and baby a month old at home, but the answer of the youths was to beat him into unconsciousness. Then he was strangled four times. The boys were arrested while trying to sell some of the booty. All confessed to the crime.

CHICAGO TEAM LOSES  
GAME TO CARDINALS

Cardinals Take Game From Chicago by 20 to 11 Score and Prove That They Can Come Back.

With a record of three lost games to make up for the Cardinals went after the Chicago team which played them Saturday night, with such good effect that they won the game 20 to 11. Those who witnessed the game were satisfied that the Cardinals could play a good game and the fans who stood by them when they ran into considerable hard luck can now give the croakers the laugh. It was not because of a weak team that the Cardinals won the Chicago game being one of the best that comes from the Windy City and the visitors put up the fight of their lives. They were into it every minute and evidently encouraged by the result of former games thought that they could run off with the Jansville boys at will. At no time during the game, however, did they gain the lead. The eagerness of the local lads to replace themselves made the game a little rough and the referee was forced to call a total of sixteen fouls. Some excitement was caused by the referee when he tried to put Green out of the game for making four personal fouls but as he had not called them on him he was overruled and Green finished up the game, to the evident sorrow of the Chicago officials.

During the first few minutes of the play Jansville got a good start and never let up until the last whistle had blown. Langdon played in fine form and outplayed his man throughout the game, holding him down to two goals and making two himself. Green was in the game from the first throwup and did some excellent work as guard. The half ended with a score of 11 to 7 in favor of Jansville.

During the next half the playing became somewhat rougher and more fouls were called. Cunningham and Jones were on the job both in the team work and in handling the ball to the best advantage after it got to their end of the floor. The team work of the whole team was excellent and several of the baskets were difficult. Shots made after the ball had been brought the full length of the floor. Altogether it was the best game which the Lakotas have put up in several weeks and they showed the Chicago boys up in this shape. The lineups and scores are as follows:

Jansville Pos. Chicago  
Jones, R.F. Sullivan  
Cunningham, R.F. Sullivan  
Langdon, R.F. Sullivan  
Green, R.F. Sullivan  
Field goals—Langdon, 4; Hemming, 3; Cunningham, 2; Sullivan, 3; Thompson, 1; Delt, 1. Free throws—Sullivan, 2; Delt, 1; Jones, 1; Cunningham, 1.

BOYS WILL HOLD BIG  
SKI MEET SATURDAY

Tracy Allen and George Brown Hold First Places in Professional and Amateur Classes Respectively.

St. Louis's picture was the scene of the first tournament of the Jansville boys' ski club Saturday afternoon, which proved to be a big success. Tracy Allen won first place for the day with jumps of 35 and 34 feet, although he suffered the fate of the larger number of contestants and did not land with the proper dignity. Allen Taylor was the second in the professional class with two good jumps.

George Brown made jumps of 20 and 17 feet, winning first in the amateur class, although Henry Ford made longer jumps. Ford fell, however, and did not score as high as Brown.

The track was in excellent condition and some record leaps would have been made for that slide had it not been for a wind which blew directly in the faces of the skiers. Every thing taken into consideration, however, the contest was a great success and plans have been made for the tournament next Saturday. A small entrance fee will be charged at this meet in order to pay for the prizes which will be offered. Ski jumping has become a very popular sport in Jansville and many of the boys are becoming experts at the dizzy sport.

The following are the scores made by the different entrants:

PROFESSIONAL CLASS.			
	1	2	3
Wetrick	25	26	65
Allen	25	26	51
Taylor	23	27	50
Wolf	21	26	47

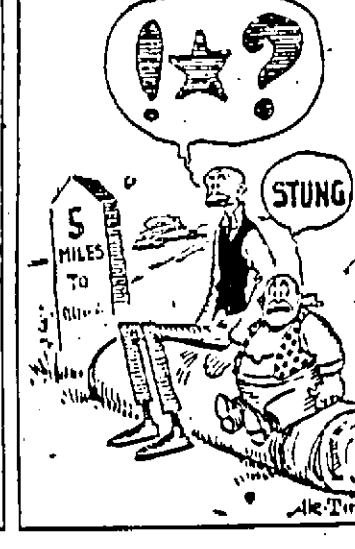

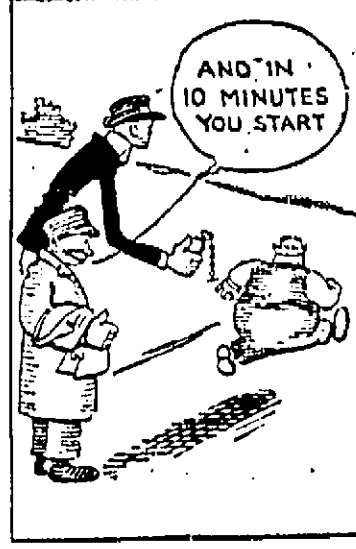

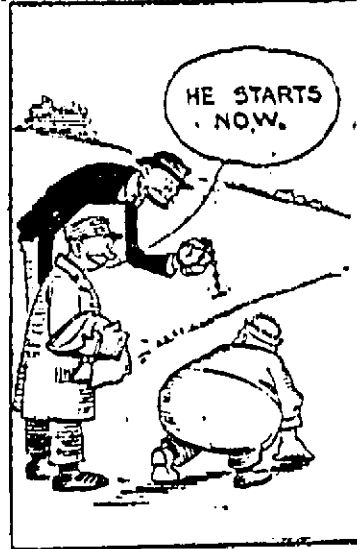

AMATEUR CLASS.			
	1	2	3
Jackman	20	20	40
Harris	21	22	43
Porter	17	19	36
Brown	17	20	37
Lee	18	20	38
McCarthy	19	19	38
Ford	25	21	46

Longest standing jump, Maurice Wetrick, 25 feet. Those who do not have the points played after their names fell in every jump and so disqualified themselves.

Y. M. C. A. JUNIORS  
LOSE FIRST GAME

Rink Boys Take Game by 7 to 6 Score After Hard Fight Saturday Afternoon.

In a fast and hard game Saturday afternoon the undefeated J. Juniors at the Y. M. C. A. met a team composed of the skate boys at the rink and went down in defeat by a score of 7 to 6. Neither team had the advantage over their opponents and the outcome of the game was an uncertainty until the time was up. Few baskets were made on either side and the efforts of both sides were spent in guarding their opponents. The game was close throughout, as evidenced by the score and with the dis-

Feb. 12, 1912. The barometric depression that occupied the eastern end of the Gulf of Mexico Saturday morning moved northward along the Atlantic coast as a severe storm. It was attended by heavy rains and high winds on the southern coast. The highest velocity, 55 miles per hour, was reported at Cape Hatteras. It was followed by a severe cold wave in the southeastern states.

The atmospheric pressure has been high in the Lake region and over the Atlantic coast as a severe storm. The air has consequently been cold, and radiation of heat from the ground rapid.

A trough of low atmospheric pressure stretched the length of the Rocky Mountain region from Saskatchewan to Arizona. It is the seat of warmer weather, with cloudiness and scattered snow flurries, and will control the weather of this vicinity during the next day or two. The weather in this vicinity will probably be cloudy and unsettled, with light snow fall tonight and Tuesday, although it may clear during the night and be colder. It will be warmer Tuesday.

## At The Theatre

Well Deserved Recognition.

The official acknowledgement of the Lyman H. Howe Travel Festival as a mighty influence for public good was the honor again conferred upon Lyman H. Howe during the greatest naval review in American history. Several years ago educational value of his exhibition was recognized by the highest Government officials to such an extent that they considered it advantageous to give him privileges to photograph many events of great national interest. Mr. Howe's photographs, at that time, demonstrated their ability so well that during the naval review in New York harbor last November they were allowed to place their cameras at any point of vantage they chose. The importance of presenting to citizens authentic and intimate scenes showing the magnitude of our navy and the efficiency of men, guns and machinery prompted the Secretary of the Navy, Mr. von L. Meyer, to permit Mr. Howe's camera men to accompany him on the U. S. S. Dolphin as the official photographers of every phase of the review.

It was the most magnificent exhibition of the fighting forces of a country ever attempted. It will be vividly reproduced at the Myers theatre, March 25 and 27, matinee on the 27th.

## The Janesville Gazette

New, Old, and All the News of Janesville, Wis., and Surrounding Country.

MEMBER OF ASSOCIATED PRESS.

BUSINESS OFFICE OPEN SATURDAY EVENING.

## WEATHER FORECAST.

For Janesville and vicinity: Fair tonight; Tuesday unsettled; weather rising; temperature Tuesday.

## TO PROSPECTIVE CANDIDATES.

The coming primary election is likely to put in the field a large number of candidates, as any man has a right to aspire to the office of either mayor or commissioner, who feels so inclined. It will be necessary for those men to get before the people, and for their information and convenience the Gazette publishes the following brief form of announcement which occupies about one inch of space. The charge for inserting this notice is 25 cents each issue, cash with order. No account will be opened with candidates.

## ANNOUNCEMENT

I hereby announce myself as a candidate for.....at the coming primary election, and solicit the support of the voters.

(Signed).....

The Gazette has no names to suggest, and will support no man for office before the primary election.

## MERELY REELS.

The republican governor who assembled in Chicago last week to prepare an official call to former President Roosevelt to announce his candidacy for nomination at the national republican convention, only acted on their own responsibility, not as the authorized agents of the states whose title they added after their names. They were merely reels. They would just as soon have called upon Senator La Follette or Senator Cummins to have come out if they had not thought that perhaps Roosevelt was the strongest of the three men. It was the old doctrine of "Beat Taft with any old excuse."

Today comes the word from Washington that Bryan and La Follette are going to form a new party. This is so old that it is not even given credence when reported with new garb. Bryan is at odds with even the most radical leaders of democracy as La Follette is at present even with the progressive leaders. However, these men are naive enough to know that a new party would not be a success at this stage of the game and that their names are not magnetic enough to rally about their standard but a meager following. Now they will both remain in their parties.

It would not be surprising, however, if both these men were adopted by the socialists. The organ of this party in Wisconsin is continually praising the Senator from this state and has "hiss, hiss" words to say of Bryan at times. Its influence as a national organ is fixed by the fact that its editor is the only socialist member of congress which gives it precedent for doing what it does.

Taft's headquarters are to be opened in Chicago and the fight will go on there. The men who figure on possible make-up of delegations give Taft the majority of those to be chosen and this should startle the wheels of his band wagon. Meanwhile the insurgents are casting about for some plan to light and trusting that Roosevelt will come out of his retirement and consent to be a candidate.

## MEXICAN SITUATION.

It is to be hoped that the Madero government will be able to suppress the present revolution in its infancy so that the troublesome times of the past year will not have to be undergone again. The United States government has so far contented to add Madero in perpetuating a small detachment of soldiers to cross the border line into the United States to reach Juarez, which seems to be the storm center of the rebel forces. Meanwhile it has its trained forces on this side of the Rio Grande ready to cross the line if need be to protect American interests in the rich state of Chihuahua, where most of the rebellious talk has originated. General Pascual Orozco, who commands the troops in this state, is said to be loyal to Madero but to be working with adverse conditions at home, the legislature being half-hearted in their allegiance to the national government. It is to be hoped, however, that Madero has firm enough hold on the situation to put down the trouble without having recourse to aid from Uncle Sam.

## LINCOLN'S BIRTHDAY.

This is the one hundred and third anniversary of the birth of Abraham Lincoln. All over the United States, even below the Mason and Dixon line, this day is marked by special observances. Lincoln was born to aid this nation at its most critical period. He arose from obscurity to prominence through his own efforts and fell the victim of an assassin at the zenith of his glory. Secretary of State John Hay once wrote of Lincoln and the proposed memorial to be erected in the District of Columbia.

Lincoln, of all Americans, next to Washington, deserves this place of honor. He was of the immortals. We must not approach too close to the immortals. His monument should stand alone, remote from the common habitations of men, apart from the business and turmoil of the city; isolated, distinguished and serene. Of all the sites this one near the Potomac is most suited to the purpose.

The school children of today are

taught the story of Lincoln in their daily lessons and by its teachings the tale becomes a classic that will be handed down to future generations. Congress may take a memorial to this great man but his greatest and most enduring testimonial is in the hearts of the citizens.

## TWO WEEKS LEFT.

There is yet time for many more candidates to appear in the field for the office of commissioners that will be voted upon at the April election. The nomination papers are being circulated throughout the city and it is to be hoped that good men will take it upon themselves to offer themselves for these offices. Six candidates will be selected from the field and these will be voted for at the April election. The one receiving the highest number of votes, as candidate for Mayor, will be elected, and the two highest candidates for commissioner will also be named.

There is considerable anxiety among some of the labor leaders as to just who have been indicted for the dynamiting plots, but that will all be cleared up in a few days when the arrests actually take place.

The democrats feel that victory is certain this presidential year and to make it more so they are dividing up into as many cliques as they possibly can.

## ON THE SPUR OF THE MOMENT

SPRING. (A man in Indiana claims to have seen the first spring robin.) The first new robin has been seen and so it's up to us. To tune our lyre (or maybe lute) and make a little fuss.

About the advent, once again, of most salutiferous Spring.

Along about this time of year it is the proper thing.

Oh, glorious Spring with chirping birds and sprouting trees and snow.

It's time to get the rake and hoe and start the garden war.

Oh, beautiful Spring! It's almost time for wild flowers to be ripe—Excuse us for a minute while we thaw a frozen pipe.

Oh, wondrous Spring, we welcome thee once more with open arms. We welcome thee within our midst with all thy varied charms.

We greet thee charming season, with a loud and joyful shout—We've got to go down cellar now, our furnace fire is out.

Oh, balmy Spring, we will ere long get up each morn at dawn, To get the neighbor's tower out and manure our lawn.

We're glad to see you once again. That's certain, but—Gee whizz! We've got to stop this verse right here.

Our doggone ink has friz.

CAUGHT ON THE FLY. An English paper asks if poets make good husbands. Most of them make better husbands than they do poets.

Mr. Bellowsky's comet chose a poor time to visit the earth. There are too many comet attractions just now.

It would take a pretty lively moving picture machine to catch all the details of the Chinese revolution.

The Whitlock brand seems to be the brand that Toledo likes.

A Connecticut minister has started a crusade against rice throwing at weddings. Nothing, however, has been said about flannels and rolling pin throwing after weddings.

Dr. Pearson, the ebullient, has decided to quit tobacco after using it for twenty years. It is always wise to stop a thing like that before it becomes a habit.

Eddie Young, a California pugilist, has gone into the ministry. He will find a shrillness in the gate receipts.

It seems as though the flaxseed conference should do a little conferencing just about now.

Buffalo Bill has said farewell to the show business forever until next season.

SOME REASONABLE HINTS. When suffering from the heat do not drink too much ice water.

If you do not perspire freely this hot weather it is a sign that there is something wrong with your system and you should see a doctor at once.

Don't exercise too much in the hot sun. Once a person is sunstruck he is the same as though he is struck with lightning. It is never the same afterwards.

Don't forget to put sunburn on the horses to protect them from the fierce heat of the sun.

A very sensible thing in the way of underwear for this hot weather can be made out of discarded mosquito netting or out of old hammock.

For Breaking Out. "Why do you have those glass cases with the ax, hammer, crowbar and saw, on these cars?" asked a traveler on the railroad going to New York.

"Oh, those are put there in case any one wants a window open," replied the facetious man.

## LOCAL DEMOCRATS TO MEET ON THURSDAY

Will Gather From All Parts of the County to Talk Reorganization of the Party.

On Thursday next, at one-thirty, the local county democrats are to meet at the assembly room of the city hall for a general peace conference, love feast and for organization purposes. Democratic State Chairman Schultz of Milwaukee will be present to address the meeting and County Chairman Ed. Council is planning to reach all of the districts in the county so that a full representation will be present. Democratic National Committeeman Joseph L. Davies of Madison has also promised to be present. An Mr. Davies is known to be an ardent Wilson booster. It is possible that efforts will be made to have the local county authorities endorse the candidacy of the New Jersey man. If this should be done it will bring about a lively session as there is considerable partisan sentiment expressed among the old-time leaders of democracy.

## FIRST ROAD SCHOOL OPENED AT MADISON

Highway Commissioners From All Over State Gather for Important Meeting This Week.

Madison, Wis., Feb. 12.—With an address of welcome by Governor F. E. McManis, the first annual road school of the Wisconsin highway commission was opened in the assembly chamber of the capitol this afternoon. The response was made by G. P. Post of Sauk county, president of the Wisconsin County Highway Commissioners' Association. Addresses were made by Senator John S. Donald, Mount Horeb, on "History of the Road Movement in Wisconsin," and by former Senator John A. Hazelwood, Jefferson, chairman of the state highway commission, on "The State Aid Highway Law." Election of officers and appointment of committees will be made tonight. President Post will give his annual address and Secretary W. O. Hotchkiss will speak on "Cooperation in Road Construction."

Road machinery valued at \$100,000 has been unloaded on East Washington avenue adjacent to capitol park for demonstration purposes, and numerous manufacturers have representatives here.

## LONDON SOCIETY ATTENDS WEDDING OF LADY ERSKINE.

Becomes Bride of David Cecil Bingham, Son of Brigadier-General Bingham.

London, Feb. 12.—High society was well represented in the gathering that filled the Guards Chapel, Wellington barracks, at the wedding this afternoon of Lady Rosalind St. Clair Erskine and David Cecil Bingham. The bride is the only daughter of the Earl of Rosslyn, who is known in America through her appearance on the stage. Her parents were divorced in 1907 and the Earl subsequently married Miss Anna Robinson, an actress, whose home was in Minneapolis. David Cecil Bingham, the bridegroom, is a son of Brigadier-General Cecil Bingham, who a year ago was married to the beautiful Mrs. Samuel Sloan Channing, formerly Miss Carr of Louisville, Ky.

## INDIANA BUSINESS MEN MEET IN CONVENTION.

Retail Merchants Gather At Indianapolis to Discuss Business Conditions.

Indianapolis, Ind., Feb. 12.—An army of retail merchants invaded this city today for a week's convention and exhibition under the auspices of the Indiana Business Men's Association. The president of the organization is Fred Frohman, who is here to preside over the sessions of the convention. Prominent speakers to be heard include Governor Marshall, who will welcome the visitors; John A. Green of Cleveland, secretary of the National Retail Grocers' Association; M. J. Maloney of Detroit, president of the National Retail Merchants' Association; and E. W. Moon of Chicago, secretary of the American League of Associations.

## HARRY K. THAW PASSES FORTY-SECOND BIRTHDAY.

No Special Marked Passing of Day for Man Confining in Hospital for Criminal Inmate.

Flushing, Landing, N. Y., Feb. 12.—Harry K. Thaw today passed his forty-second birthday anniversary at the Matteawan Hospital for the Criminal Inmate, where he was sentenced after the second jury which tried him for the murder of Stanford White found him insane. No special incident in the routine of Thaw's life marked the anniversary, except that he received visits and messages from several of the members of his family. It is again rumored that Thaw is about to make another effort to gain his freedom by habeas corpus proceedings.

## GOV. OSBORN TO CALL MEETING OF LEGISLATURE

Michigan Lawmakers Will Meet to Decide Presidential Primary Matter.

Lansing, Feb. 12.—Gov. Charles S. Osborn announced today that he is preparing a call for a special session of the legislature to convene Monday, Feb. 26. The governor's action is said to have been the result of urgent requests by Michigan voters for a presidential primary election.

## South Florida Golf Title

Palm Beach, Fla., Feb. 12.—Play in the annual golf tournament for the South Florida championship began on the Palm Beach links today with a qualifying round of 18 holes. The tournament will continue until the end of the week and judging from the high-class list of contestants the competition will be among the keenest ever seen in the South.

## UNIVERSITY SHOULD BE MORE EFFICIENT

SUPERINTENDENT CARY ANSWERS QUESTIONS REGARDING COST AND EFFICIENCY.

## TEACHING FORCE HIT

Criticizes System of Allowing Student Teachers So Much Work While Professors Engage in So-Called Research.

Madison, Wis., Feb. 12, 1912. To Teachers and the General Public: "Why does the university cost so much money?"

1.—Because it is a big institution and is doing work that requires large equipment and the service of many teachers.

2.—Because a large amount of building is in progress—eight buildings including annexes, are now under construction.

3.—Because of expensive purchases of land. One of these purchases was made by a special appropriation of the last legislature and comprised some 150 acres of farm land on the ridge, two miles west of the university, at something over \$1,500 an acre including interest, a total of \$235,000—\$47,000 of which is to be paid every year for five years.

4.—Because the administration, including officers, clerks, stenographers, and other employees not engaged in teaching, costs a large sum—approximately \$250,000, while \$750,000 is paid for teachers' salaries.

5.—Because of miscellaneous expenses.

6.—Because of a goodly sum for traveling expenses, say \$20,000 a year including expense.

The total income of the university is now over \$2,000,000.

Why is it not more efficient?

Regarding Faculty.

The faculty of the university is large. The hours a week devoted to teaching on the part of the faculty members range from, say, six to fourteen. The average number of hours taught per day is approximately two or ten hours a week. Those who teach the larger number of hours per week, excluding student teachers, are usually those receiving the lower salaries. I have figured out as nearly as I could from the time table of the second semester and the budget, the facts concerning one department in which there are seventeen teachers. The total number of recitations per week is one hundred and seventy-four. Of these recitations, sixty-five are conducted by the seven men who receive over \$1,500 a year; fifty-six recitations are conducted by the four men who receive salaries from \$1,100 up to \$1,400 a year; and fifty-three recitations are conducted by the six men who receive \$800 a year or less. Those who receive \$600 a year or less are graduate students, that is, students who have credit for four years of college work and are carrying on advanced studies.

Cost of Teaching.

It will be observed that between a quarter and a third of the teaching in this department is done by men who are graduates of colleges and are here in this university for the purpose of carrying on advanced study, and are not receiving salaries for their teaching. The salary paid in this department is \$2,500, and the man who receives it teaches nine hours a week. In another department there are two men who receive \$2,500 each. Last semester one of them had a total of twenty-nine pupils and the other forty-nine, making a total for the two of seventy-eight; thus these seventy-eight students were taught last semester at a cost of \$3,500, at a rate of about \$45 apiece for the semester, or \$30 a year each in this one subject. Two other men who were students in the department, young and inexperienced, taught some eighty-seven pupils at a cost of about \$7 each.

It will thus be observed that the cost per student, over which there was a good deal of controversy last year, is an elusive sort of thing, but it probably increases rapidly in amount as students go forward from freshmen to graduate classes. It is generally conceded, however, that freshmen need more care and attention than advanced students.

A large share of the teaching in the university is done by men who get scarcely a living salary. Leaving out the two lowest (\$800 each) and the two highest (\$2,500 each) in one department, I find that there remain twelve men, and these men average \$1,185. In another department out of twenty-four teachers, four get over \$2,000, fourteen get \$800 or less, while six get salaries somewhere between

\$800 and \$2,000.

Students as Teachers.

There are some excellent teachers in the university who receive low salaries, but as a rule it is probably true that the low-paid men are not highly satisfactory. The students who are teaching are not supposed to be devoting full time to instruction; their studies get half their time, and probably most of them, four-fifths of their interest and enthusiasm. Teaching is likely to be merely an unpleasant interruption in the day's work.

The men who are getting the larger salaries are supposed to be deeply interested in research work, that is, a diligent and persistent effort to find out something that nobody ever knew before. Their reputations among their equals, their salaries and the standing of the university with which they are connected, unfortunately depend almost wholly upon their zeal and success in turning out learned articles and monographs. In the midst of all this the student gets on as best he can, and there is little wonder that students complain of scant attention and poor instruction, notwithstanding the large cost of the university.

Sometimes the students come in contact with splendid self-sacrificing men who give the best of themselves to their students and are zealous that all for their welfare. Not infrequently such men lose caste with their fellow-workers, not to mention the university officials, and are looked upon as "merely teachers," unfit for promotion.

No Personal Supervision.

Another reason for the large amount of poor teaching that is done in the university, is that nobody in authority, has the tendency to go into a class taught even by a student who is wholly inexperienced, and give any suggestions as to how the work should be done. In other words, there is no personal supervision in the university, with the exception of a little here and there within a department itself. Any manufacturing plant, run on so crude a plan would turn out a very inferior product. A capable man could easily earn a large salary for the state by supervising the teaching of the university if the institution would submit to it and co-operate heartily.

Yours respectfully,  
C. P. CARY,  
State Superintendent.

Toronto Grocers.

Toronto, Ont., Feb. 12.—Several hundred men, representing millions of dollars of invested capital, gathered here today for the annual convention of the Dominion Wholesale Grocers' Guild. The organization includes in its membership the principal men in the wholesale grocery trade throughout Canada. The meeting was devoted to the transaction of routine business and the discussion of several matters of interest and importance to the trade.

I hereby announce my candidacy for the office of Mayor of the City of Jamesville, at the coming primary to be held on the 19th day of March, 1912.

To the Citizens of Jamesville: Realizing the responsibility of the office I am about to seek and fully conscious of the duties of said office, and with a full belief that I could bring to said office a knowledge gained by long experience in the municipal affairs of our city, which would be of material benefit to the taxpayers and citizens in general, and particularly, now that we are about to enter upon a new form of government.

Therefore I seek the nomination and election to the office of Mayor. Should I be entrusted with the Honorable and important duties of said office, I am only promise, to the best of my ability, an honest, conscientious, industrious and faithful administration of its duties in a plain, business-like manner. Soliciting the support of my fellow citizens and submitting my past public record to stand in judgment of my future actions, I am,

**FIRE LOSS SUSTAINED**

ON ALBERT HIGGIN'S FARM.

Fire destroyed the home on Albert Higgin's farm four miles east of the city on Monday afternoon last. The flames originated from a defective chimney and were discovered by Mrs. Higgins about two o'clock. All attempts to check the flames were futile and only a small amount of the household furniture was saved. The loss is estimated at \$1,000.

**AWARDS ANNOUNCED FOR BEST GRAINS**

HENRY TAYLOR OF JAMESVILLE WINS SILVER CUP FOR TEN BEST EARS OF CORN.

**PREMIUMS REACH \$200**

One Hundred and Fifty Entries of Grain Made—Thirty Merchants Offer Prizes.

The Grain Show given last Saturday in the City Hall at Jamesville, proved a grand success. There were 150 entries of grain, all grown in Rock county. The credit of the show belongs to the merchants and business men of Jamesville, who have contributed so liberally with cash and merchandise for the premiums, which totaled over \$200. All the advertising and printing was done free of charge by the Jamesville Gazette and the Rock County Experimental Association, for helping along a movement which means a more prosperous and attractive life upon the farm.

This is only the beginning of a very powerful organization composed exclusively of farmers for the purpose of bettering their present conditions. Or the thirty-two merchants who were called upon by the promoters of this grain show, only two refused to give any aid. This shows there is a strong feeling of good fellowship between the farmers and the community. A great many more would gladly have subscribed, had they been called upon, and quite a number gave donations unsolicited.

The secretary is pleased to announce that there are now over seventy members enrolled in the association and this list includes some of the most influential and progressive farmers in Rock county.

The following is a complete list of prize winners:

**MILLIKEN RESIGNS AS SUPERINTENDENT**

Will Leave Jamesville Machine Company March 1 to Accept Position at South Bend, Indiana.

N. I. Milliken, superintendent of the Jamesville Machine Company during the past seven years, has resigned his position here and has accepted the position of general superintendent of the Oliver-Chilled Plow Works of South Bend, Ind.

Mr. Milliken severed his connection with the local company on March 1 and immediately takes up his new and responsible duties with the South Bend company which is the largest plow factory in the world. The output of the plant is nearly half a million plows annually and the factory's floor space is thirty-six acres.

During his stay in Jamesville Mr. Milliken has made many close friends. His unusual grasp of affairs, his keen business sense and tremendous energy have gained him the front rank in the estimation of the local business men and have demonstrated his fitness to assume larger responsibilities.

His term of service at the local factory he has practically rebuilt the entire plant and has brought the equipment up to a standard which is second to none in this country.

He is a very capable business man and has done much to further the affairs of the local concern. His business associates and the community wish him success in his new field of labor.

**LINCOLN'S BIRTHDAY IS OBSERVED TODAY**

Prof. H. C. Buell Gives Address to High School Students—Exercises in Other Schools.

Lincoln's birthday anniversary was observed in the schools of the city in an appropriate manner today. Prof. H. C. Buell gave a short address to the high school students this morning on Lincoln's character. He told of incidents in the life of the country's first martyred president which indicated his political abilities, his insight into men and affairs, his tact and diplomacy, and his power as a patriot and statesman.

In the grade schools of the city exercises were held in the various grades consisting of singing national songs, recitations and readings. Stories of the life of Lincoln were told to the young people and love and admiration was aroused for the country's greatest popular leader.

## LIVE STOCK MARKET HAS SERIOUS DROP

All Grades Sell at Prices Five to Ten Cents Lower Than Saturday on a Weak Market.

Chicago, Feb. 12.—There was a general depression in the livestock market this morning from which all grades suffered alike. Heavy receipts were accompanied by a poor demand and trading was slow and weak.

Cattle and hogs both faced a flat drop of ten cents from Saturday's prices. Hogs were fully five cents lower and the receipts were the heaviest of the year, 60,000 being the number estimated in the pens at the opening of trade. The market was far from encouraging for the opening day of the week. Price quotations are given below:

**Cattle.**  
Cattle receipts estimated at 26,000.  
Market—Slow generally; 10c lower.  
Horses—1.70 to 4.50.

[By Associated Press.]  
Chas. Ill., Feb. 12.—Butter firm at thirty-two cents, the same figure as last week. Output 625,000 pounds.

**EGG SUPPLY GOOD SAY AUTHORITIES**  
Propheesed Egg Famine Will Not Take Place and Fresh Hen-Fruit Will Be Plentiful.  
Despite the fact that authorities in the egg business prophesied an egg famine this year owing to the failure of the storage supply and the cold snap in January, the authorities are still able to furnish enough for the local trade. Even in the big cities there is plenty of the crop at present and the reported famine has not come to pass. The hen-fruit is still selling at prices ranging from 37 cents to 40 cents a dozen and no storage eggs are on the market at all. There are no noticeable changes either in prices or products today and the markets are rather quiet with the following prices quoted:

**Vegetables.**  
Carrots—2c lb.  
Parsnips—2 1/2c lb.  
Potatoes—\$1.20 bu.  
Cauliflower—20c.

### LARGE ATTENDANCE AT CHARITY BALL

Nearly 250 Couples Enjoyed Annual Event Friday Evening—K. of P. Homecoming Planned.

[Special to the Gazette.]  
Evansville, Feb. 12.—There was a larger attendance at the Charity Ball than ever before, two hundred and forty-one couples being present. The music furnished by Hutch's orchestra was exceptionally fine and Edward Atkinson captivated the company with his xylophone solos. The annual Charity Ball has become quite a famous event. There were people from Albany, Fort Wayne, Muncie, Indianapolis, Ellettsville, Madison, and other places. The Central House of the Central House served supper to two hundred couples. The program of the evening was given over to the old folks and the managers gave them all the old fashioned dances much to their enjoyment and merriment. After midnight the more modern dances followed until the early hours. The financial results are not yet definitely known, but the distributing committee will have a generous sum to use for charitable purposes.

### COULD FIND NO USE FOR STOLEN BUTTER

Evansville Thieves Use Bricks of Butter for Snowballs But Dispose of Chicken.

Evansville, Wis., Feb. 12.—Some miscreants entered the back part of the Central house Friday evening and stole from a refrigerator, thirty pounds of creamery butter and a four gallon jar full of chicken that was cooled and prepared for the charity ball supper. In the course of an hour or two some of the employees heard a sound as of something thrown against the house and on going out to investigate it was found to be the missing butter, which was thrown up against the side of the house. However, the chicken was not returned.

**Prisoner Released.**  
The young man who was arrested for burglarizing the Economy store Thursday evening, gave a satisfactory account of his whereabouts at the time of the robbery and was released and sent back to Madison, where he was arrested.

### MRS. ALLEN BAKER CALLED BY DEATH

Wife of President of Baker Manufacturing Company Passed Away Sunday Morning.

[Special to the Gazette.]  
Evansville, Wis., Feb. 12.—Mrs. Allen S. Baker, wife of the president of the Baker Manufacturing company of this city, passed away at her home here Sunday morning after a brief illness. The funeral services will be held at the home Tuesday afternoon at half past two. There will be an opportunity for the friends to see Mrs. Baker for the last time Tuesday morning between ten and eleven o'clock.

Mrs. Baker's death came as a shock to her many friends here. Although she had been ill for several weeks it was not thought that her condition was dangerous. She was a woman of beautiful character and has been very influential for good in many ways. She was a member of the First Congregational church where she was an earnest worker. She was sixty-eight years of age.

### TWENTY-ONE STATES REMEMBER LINCOLN

Wisconsin Is Not Included Among Those Who Pay Official Tribute to President's Memory.

[Special to the Gazette.]  
Washington, D. C., Feb. 12.—With the passing of each successive decade the observance of the natal day of Abraham Lincoln has become more marked, until today no fewer than twenty-one states paid official honor to the memory of the civil war President. The states in which Lincoln's birthday is now a legal holiday are California, Colorado, Connecticut, Delaware, Illinois, Iowa, Indiana, Kansas, Michigan, Minnesota, Montana, Nevada, New Jersey, New York, North Dakota, Pennsylvania, South Dakota, Utah, Washington, West Virginia, and Wyoming. For some reason not easily understood the day is not officially observed in the New England States excepting Connecticut.

## How to Choose a Cream Separator

Here Is The Standard By Which The Efficiency Of A Cream Separator Should Be Tested:

### It Should Skim Cool Milk

It's much harder to skim milk at 65 to 70 degrees than milk at 85 or 90. Some machines that will do fair work with milk at 90 degrees will get all clogged up with milk at 70. Remember that lots of times in the winter your milk will be nearer 65 than 85.

### It Should Produce Heavy Or Thin Cream as Desired

Whether you are churning your own cream, selling it to a local creamery, or shipping it to some distant point, it is desirable to produce a very thick cream. Thick cream churns easier, is less liable to spoil, and has less bulk. It pays to make thick cream, but to do this the machine must be mechanically perfect. A poorly or cheaply constructed separator cannot be adjusted to secure the desired results.

### It Should Separate Its Full Capacity

All cream separators are rated up on the basis of their capacity for one hour. The De Laval is the only machine made that will, under all conditions, separate its rated capacity for one hour, and at the same time skim, clean and produce cream of uniform quality.

In addition to the above a cream separator should be simple in construction, durable, easy to operate and clean.

### The De Laval Meets All These Requirements

We don't know of any other separator that does. If anyone representing any other separator comes to your city a lot of claims make them prove up to this test. Your creamery man will tell you that it's a fair test.

## HEART AND HOME TALKS

### Earning Money at Home

**A**L over the country are women who have turned their skill in cooking into a means of making money at home. It is work that opens out in many directions; and the woman who has not yet seen a chance field in it for her, has perhaps not studied it in all its many ramifications.

A very nice business can be built up in some communities by providing little delicacies for the sick. To be sure, these can often be secured at a Woman's Exchange. But in some communities, there are no Women's Exchanges, and again it is not always convenient to go to an exchange for what is needed.

Often the mistress of a home, where there is an invalid or a shut-in, would welcome some little delicacy made by some one outside of the home, to tempt the sick one's appetite. Its novelty often appeals to the invalid, when delicacies of home manufacture fail. Then, too, the busy mistress of the home does not always have time to prepare the tempting dishes the sick appetite of the sick craves. If, therefore, a woman would make a study of the subject, so as to know what to give in different cases, she might be able to build up for herself a good business of this character. She could make her business known by letter or personal interview; and then when she was recognized as a responsible and trustworthy person, she could phone each morning to the home where there was an invalid, and suggest some tempting dish which she would prepare and deliver. She should let it be known that she understood the dietetics of her business, and that she was careful to get pure foods.

Not only might she build up a trade in this way for invalid cooking, but she might get orders for some dish which she made a specialty.

Many a woman has built up a good business by simply making pies to order, or one kind of pudding or cake. Plenty of women bake cakes to order for parties. In one small suburban community, a woman whose fried oysters were famous at church suppers, decided, when misfortune overtook her, to make the business of frying oysters; her means of support. In the morning she would get her orders, and then deliver at any time during the day, the oysters ordered. They would come to the customer's house piping hot, just as the family were ready for the meal. And she made a very good income in this way.

Another woman took orders for mince meat and made it. Making jellies and preserves and canned goods to order is a quite a common method now, of earning money at home.

The woman who wants to work in this field should find out what it is the housekeepers of her community dislike to do, and then offer to do it for them. Sometimes it is making dishes that are tedious and complicated in the process, such as mince meat, fruit cake, pickles. Sometimes it is cooking for an invalid, since it upsets the routine of the home cooking. Yet the fastidious housewife may dislike to buy haphazard these things she equally dislikes to make. If some woman whom she knows is reliable and responsible will step in and offer to make them for her, the probability is the worker will get the business.

If you are good at cooking, and want to make some money at home, think along this line. See what it is the women of your community want, and then go to work to supply it. Fill a need and you are sure of success.

## The Evening Chit-Chat

BY RUTH CAMERON

"I T IS very hard," she said, after having finally put through her plan despite all objections, "for me to give up anything I set my mind on."

She said it triumphantly, her friends applauded her, and the plan which she had put through was an eminently desirable one, which brought much pleasure to several people.

But all the same, I think that girl needs to look out. There is a power within her in which she justly exults, but it is a power which may bring her happiness or misery, according to whether she controls it or lets it control her.

All virtues have a point at which they change color and become vices. Determination and perseverance are no exceptions to this rule.

To have the perseverance and stick-to-it-iveness to carry through your plans, even when many objections are raised against them and many obstacles stand in their way, is good so long as these obstacles and objections do not consist of the rights, desires, and privileges of others.

Someone has said that the only difference between perseverance and obstinacy, is that perseverance is what you exhibit, and obstinacy is what the other man shows. If you allow for shifted viewpoints that certainly is a clever analysis, but taking them both from the same viewpoint, I should say that perseverance is reasonable, considerate tenacity that is never blind to the rights of others, and obstinacy is a blind, pig-headed, tenacity that must reach its goal, no matter whose rights or comforts it tramples over to get there.

This girl who triumphs in the fact that she finds it hard to give up, is right on the borderline between perseverance and obstinacy. I have seen her get good things done, despite many obstacles, despite lack of means to work with, despite discouraging selfishness on the part of others, and I have admired her. At other times, I have seen her at a gathering of young folks, insist on putting through some plan which was not at all agreeable to the majority, and have not admired her.

I know more than one man who, although attracted by her many good qualities, has been repelled by these exhibitions of power and perseverance gone to seed.

Indeed, an unannounced engagement was broken by the man, because this girl would insist on ordering his whole life and, worse still, in ordering him about before other people. Some men never like to be ordered about at all; some men in their courtship days rather enjoy being commanded by the lady of their hearts in private, but no man likes to be dictated to in public, no matter how well he loves the dictator.

My advice to any man or woman who is conscious of possessing the power of getting his or her own way, is to look well to that power, and be very careful to see that it does not lead through the paths of selfishness to the land of unpopularity.

## The Kitchen Cabinet

**W**E ARE constantly reminding ourselves not to waste money, but are we as careful of wasted time, wasted talents and wasted opportunities?

### CAREFULNESS IN LITTLE THINGS.

Most people are sufficiently watchful of the large leaks in household management, but the little leaks are those that often sink the great ship. It is necessary that a certain amount of care and thought should be directed toward even the simple processes of housekeeping, to make the machinery run smoother. If we are visitors in a home we do not care to hear the wheels go round, the most perfect running machinery, especially in the home, is the useless kind. The taking proper care of supplies after purchasing is hardly secondary in importance to intelligent buying.

Perishable food should never be bought in large quantities beyond the needs of the family.

Food left in paper bags that come from the markets are more apt to be flavored by the chemicals present in the paper. This is especially true of foods containing moisture.

Cereals of all kinds should be kept in glass jars, tightly covered, in a cool place.

Flour is highly absorbent and should be kept in a dry cool place.

Butter and milk should never stand uncovered.

Coffee should be bought in small quantities and ground as needed.

Eggs are porous, and for this reason should never be placed near food of strong flavor.

Soap should be unwrapped and piled in an open place to dry.

Fruit should be spread out to prevent decay, and all portions of decayed fruit should be at once removed.

Old papers that come in cracker boxes and other foods for wrapping should be carefully saved. They are useful for many things, wrapping sandwiches, eggs and are especially good after the second use, for cleaning flat irons while ironing.

One of the old-fashioned wire coffee stands make the best kind of a trivet for use in boiling puddings in a cloth. It is sufficiently high to hold the pudding well up from the bottom of the kettle.

When making ginger cookies, try a cup of coffee left from breakfast for the liquid instead of milk. The flavor is excellent with ginger.

### UP-TO-DATE HOUSEKEEPING.

Valued Winter Vegetables in Chowder, Fritters, Creamed or Escaloped.

By Alice E. Whitaker.

Although parsnips are in the market early in the winter, they are not at their best until about this time. They need to be seasoned by the frost.

To prepare parsnips for cooking in any way first wash the scraps off the very thin skin. Never be so foolish as to pare parsnips for this will waste the best portion. The inside core is practically uneatable.

For boiling, split the parsnips in halves lengthwise, cover with boiling water and cook until tender which will take from one to two hours according to size and quality. When the vegetable is nearly done add a little salt. If parsnips are very large or inclined to be strong flavored change the water in which they are cooked once at least and keep uncovered while boiling.

Be sure that parsnips are well done before draining and seasoning with salt and pepper, a generous amount of butter and a few grains of sugar. If they are to be mashed pick out all the little fibers and make the mass smooth before seasoning with salt, butter, pepper, a little butter and sweet cream to moisten. Heat again to scald the cream and serve hot.

In New England a parsnip stew is much liked on a cold day and when made properly it merits its good name. It might as well be called a parsnip chowder. To make it chop one-quarter pound of salt pork and one onion fine and cook together until the onion turns yellow. Cook on the back of the range slowly.

Wash, scrape and slice half a dozen parsnips and add to the kettle with water to cover. Cook until they are tender keeping them covered with water. Make a white sauce from a rounded tablespoon each of flour and butter and two cups of milk and when cooked five minutes season more if needed, add to the stew and in five minutes it will be ready to serve.

Parsnips enter into another stew but not as the chief ingredient. Fry two slices of salt pork in cubes until crisp but not brown, add a tablespoon of chopped onion and cook until yellow then stir in a rounded tablespoon of flour until well blended. Wash, scrape and slice two large parsnips and cook in boiling water to cover until partly done. Drain add four potatoes pared and sliced, cover with fresh boiling water and cook until all the vegetables are tender. Add the pork scraps and cook a few minutes then season and serve.

For fritters wash hot boiled parsnips fine, season with salt, pepper and to each two cups add one well beaten egg and a rounded teaspoon of flour. Form into balls, dip in an egg beaten with a tablespoon of cold

water, roll in crumbs and fry in deep fat. If preferred the mixture can be made into little cakes and fried or sautéed in a little fat.

Cold boiled parsnips are good when sliced and put into a baking dish with layers of white sauce and covered with crumbs. Set in the oven to heat and brown. Another way is to merely heat the sliced vegetable in a white sauce and if liked sprinkle on a very little finely minced parsley.

### THE CUTAWAY COAT IS THE SPRING TAILORED FEATURE.

New York City.—Very distinctive and refined in type is this attractive spring suit of dark blue serge, which shows the new cutaway coat and a shirred skirt, the shirring, however, being provided with a flap of the material underneath. Revers and cuffs are trimmed with white soutache, the revers trimming suggesting a notched, mannish collar. Three smart, stiff bows of black braid do the shirring coat opening and three more of these bows are set at the edge of the slash on the skirt.

### DIET AND HEALTH HINTS

By DR. T. J. ALLEN, Food Specialist

#### CHOOSING YOUR FOOD.

"Select your food," says Dr. Cutler, State Food Commissioner of Missouri, "with reference not to its attractive appearance, but for its purity and nutritive quality." It is important to please the eye, the taste, but it is a mistake to put these before nutrition. While the pleasure of eating is not to be ignored, the essential purposes should dominate, the other conditions being made incidental. One who is really hungry can eat any wholesome, coarse and substantial food, and if the elements to eat are reduced to the common error of eating to excess and eating too many things at a meal will be overcome. It is the invariable experience that with normal conditions of health, physical, mental and moral—that are lost chiefly by the civilized practices of preparing and eating food—one recovers the simple, normal appetite of childhood and can relish any substantial, nutritious food.

### CURIOUS BITS OF HISTORY

#### HUNTING A SHORT CUT TO CHINA.

By A. W. MACY.

Columbus was not seeking a continent, but a short cut to India and China. During his second voyage he skirted the coast of Cuba for several weeks in the confident belief that he was nearing "the City of Cathay" with all its golden treasures. For more than two centuries after his death navigators sailed up and down the eastern coast of North America seeking a passage that would lead them to China. They did not realize that America was a vast continent in itself. Jacques Cartier, a French explorer, circumnavigated the Gulf of St. Lawrence three times, following the coast line, searching for a passage to the Orient. He ascended the St. Lawrence river as far as the present site of Quebec, but he little dreamed that nearly 3,000 miles of solid land yet lay to west of him, and beyond that the greatest ocean on the globe. And for a hundred years after Cartier died his successors continued to search for a passage to the west in connection with the Gulf of St. Lawrence.

## Jelly Roll Recipe

Only Two Eggs Required

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This Jelly Roll is fast becoming very popular on account of the way it keeps fresh. With proper handling it should keep fresh a whole week, providing it isn't eaten up in the meantime, for it is every bit as good as it looks.

#### K C Jelly Roll

One cup sifted flour; scant half teaspoonful salt; 2 level teaspoonfuls K C Baking Powder; grated rind of 1 lemon; 2 eggs; beaten lightly 1 cup sugar; 1/2 cup hot milk; glaze of jelly; powdered sugar.

Beat the sugar into the eggs; add the lemon rind, then the flour, sifted three times with the salt and baking powder; and, lastly, the milk. Bake in a buttered dripping pan; turn out on a damp cloth, trim off the crisp edges; spread with jelly and turn over and over into a roll while still warm. Dredge the top with powdered sugar.

Hot milk used in the jelly roll enables it to be rolled without danger of cracking. Have the milk scalding hot, also be careful to have the eggs and sugar beaten together until very light and creamy. Bake in a moderate oven.

K C Jelly Roll is illustrated on page thirty-two of the new and handsomely illustrated 64-page K C Cook's Book, which may be secured free by sending the certificate packed in every 25-cent can of K C Baking Powder to the JACOBS BROS. CO., Chicago, Ill.

## Thought for Today

By MRS. ROBERT M. LAFFOLLETTE

"THE LEAST OF THESE."  
BEFORE it was published, Lincoln Steffens, read to us in manuscript his little fact story, "The Least of These." Since then whenever the intolerant, uncharitable spirit of "good people" toward "bad people" has found expression in our family circle, we have chided each other, and our inner conscience, with "Remember Bailey."

Bailey had been a mission worker, got an appointment as night guard and was promoted to be under jailer. He met the prisoners as friends, on the level, man to man. No matter how loathsome, he would bathe them, dress their sores, clothe them, make them comfortable and put them to bed. Often they would rebel and curse, but most of them have had mothers or some one who was that way with them, and they remember it and it tames them, said Bailey.

When they had slept a clean sleep, he would search their minds for some interest, and would teach them, anything they wanted to learn—electricity, geography, plumbing, the Bible. For it was a mistake, Bailey said, to try and teach them what WIS thought they should know. Sick souls, like sick stomachs, must be taught anything they can keep down.

As the prisoners were released, Bailey helped them organize and get honest work. No one but Bailey could have put up with the discouragements of that organization. But his patience was unending. The plan grew until the city took cognizance of it. A house was hired, which Bailey looked upon as a home for them to come to; and wherever these fallen men went, Bailey would follow them with letters and encouragement.

Against this philosophy, how unenlightened seems our legal attempt to prevent crime and reform criminals, by measuring out to them, when caught, exact punishment by imprisonment for so many days, weeks, months, years, as fixed by statutory law.

# MOST SEVERE COLD IS EASILY BROKEN

In Just a Few Hours All Misery From A Bad Cold or the Grippe Will Be Overcome.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserably neuralgic pains, headache, dizziness, head and nose stuffed up, fever, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this harmless Compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or the Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

## SCARIFIER WILL AID IN REPAIRING ROADS

County Commissioner Jones Will Use Important Implement in Work This Summer.

At the January session of the Rock county board of supervisors the highway committee was ordered to purchase a scarifier which will be an important addition to the road building equipment which the county is accumulating. In explaining the value of this new implement, County Highway Commissioner S. S. Jones, of Clinton, stated that the scarifier had been in use longer than the road roller, although it had never been used on the roads of Rock county.

The scarifier, he explained, will be used especially on old roads which are in need of repair. There are a large number of gravel highways in the county that have become worn with a trench in the center and with high places on either side. "No amount of filling in with gravel or any other road-building material," said Mr. Jones, "will effectively repair the road and put it into condition unless the hard surface is completely broken up before the new material is added. And here is where the scarifier will come into use. It is an implement like a huge harrow with heavy iron prongs which will dig into any surface no matter how hard and break it up. It may be attached behind the road roller and drawn over the road. The hardest road-beds will be broken up in this way and then the new material can be added."

The scarifier will be used on a number of roads in the county this summer to place them in condition for incorporation into the county system of highways.

It is impossible to have gravel or material used in repairing a road mix into the road-bed unless the surface is torn up in some manner. The rut will be filled up but they will soon reappear and the road will be no better than it was before. The scarifying places the road in a condition for receiving new material so that it will mix with the old surface to make a durable and virtually new highway.

## EXPECT WARM WAVE LAST OF FEBRUARY

Temperatures Above Normal Predicted by Foster Bureau for Week After Next.

(Copyrighted 1912 by W. T. Foster)

Last bulletin gave forecasts of disturbances to cross continent Feb. 6 to 12 and 14 to 18, warm waves 7 to 11 and 13 to 17, cool waves 10 to 14 and 16 to 20. These disturbances were expected to include about two weeks of moderate temperatures with less than usual precipitation and more severe storms than usual during the last part of the period. Most severe weather was expected on the Pacific slope and in eastern sections near Feb. 18. Steady cold or steady warm weather is best for winter grain and therefore the two weeks mentioned above was not expected to be the best kind of weather for winter grain.

Next disturbance will reach Pacific coast about Feb. 18, cross Pacific slope by close of 19, great central valleys 20 to 22, eastern sections 23. Warm wave will cross Pacific slope about Feb. 18, great central valleys 20 to 22, eastern sections 23. Cool wave will cross Pacific slope about Feb. 21, great central valleys 23, eastern sections 25.

Temperatures and precipitation of this disturbance will average a little above normal and the storms will be a little more severe than usual in the great central valleys and westward to the Pacific coast.

Another Warm Wave.

The winter storms are expected to again increase in force near Feb. 26 but for the remainder of Feb. no extreme temperatures are expected. The worst feature will be the warm wave about Feb. 18 to 22 which will not be good for winter grain.

It is believed that we are nearing the completion of a weather forecast system that will supplant all others and that will eventually be adopted by all governments. "Truth is a slow traveler and general acceptance of it, only truly scientific method of weather forecasting, is not immediately expected."

But agriculture should immediately be in possession of all the information that this forecast system will give, based on the best obtainable weather records covering 60 to 90 years of careful observing and recording what the weather has been in the past this system comes to the public with reason on its side and will not be long in gaining public favor.

We are now planning a method of putting all this valuable information before the farmers and planters for their use in planting and sowing. We are confident that great good will be done and that millions will be saved to agriculture by knowing what and when to plant and sow.

**Crop Weather**  
The plan of extending this crop weather information has not yet been completed. About three million people are now receiving and using this information while more than one hundred millions in the states, in Mexico and in Canada should have its benefits.

It is believed that we now know how the crops should be varied in the various sections so as to bring out best results. As an example my calculations show some important and very valuable rains during the coming season in the Missouri valleys with a temporary drought will be in operation on the south Atlantic coast. If crops were regulated in time and kind to fit those cropweather conditions the benefits would be counted in billions.

## TOWN LINE

Town Line, Beloit, and Rock, Feb. 12.—Mr. and Mrs. L. J. McCrea, Mr. and Mrs. L. C. Walters, Mr. and Mrs. D. H. Hild, Edw. Dugan, D. Humphrey, J. C. Eddy and Mrs. David Thorne attended the funeral of Miss Jessie McCrea, at Afton Friday P. M.

The enclosed reads among a profusion of beautiful flowers and the large number of friends present showed the high esteem in which the deceased was held. After a dozen of Janesville, conducted the service, the song service being beautifully rendered by Miss Parla and Miss Cora Anderson of Janesville, interment in the Afton cemetery.

"The Silver Princess," a new play and concert, will be given by twenty-five members of the "Silver Arrow Dramatic Society," of Beloit High School, Thursday, Feb. 15 at 8:00 o'clock at Brinkman's hall for the benefit of the Ladies' Aid Society of Afton. This notice should be of interest to readers of this vicinity as one of interest to readers of the vicinity of the prominent characters of the play is a local young man, Albert Eddy.

Henry Barthling Sr. and daughter, Miss Minnie and granddaughter, Doris, Snyder, were guests of Mrs. Wm. Stanley, of Beloit, the first of the week.

Mr. and Mrs. Ben Garsha visited at the home of John Lindo Tuesday.

Miss Jessie Walters is spending some time in Beloit, caring for her grandmother, Mrs. Hugh Lee, who has been very sick with bronchitis.

Mrs. Lee is much improved at this writing.

N. B. Lanabee left Monday morning for Bristol, Wis., for a visit of several weeks.

L. J. McCrea spent Tuesday night in Afton, because of the death of his niece, Miss Jessie McCrea.

Henry Knapp delivered hogs at Tiffany, Wednesday, and J. C. Eddy, brought a load to Beloit Thursday.

## ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning.

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress, let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great.

Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerful face for months. Children love to take Cascarets because they taste good—never gripes or sickens.

## SOUTHWEST PORTER

Southwest Porter, Feb. 12.—Miss Irene Montgomery was given a pleasant surprise by some of the neighbors Friday evening. The chief entertainment was chess playing and at midnight a tempting supper was served. When the guests departed they presented Miss Montgomery with two handsome gold silver spoons. Those present were Mr. and Mrs. Charles Emerson, Mr. and Mrs. Lee, Bernard, Mr. and Mrs. Charles Van Wart, Mr. and Mrs. Martin Farnett, the Misses Ella Fehrer, Jennie Olson, Lillian Spencer, Helen Olson, Jennie Farnett, Bessie Emerson and Messrs. Halvor Hagen, Edwin Olson, Clarence Hagen, Alvin Farnett, Earl Van Wart, George Farnett and Henry Farnett.

Miss Ethel Van Wart attended a party given by Miss Belle Green in Evansville Friday evening.

**The Child and the Bee.**  
Charity is a naked child, giving money to a bee without wings; naked, because excruciating and simple; a child, because tender and growing; giving honey, because honey is pleasant and comfortable; to a bee, because a bee is laborious and deserving; without wings, because helpless and wanting. If thou deniest to such, thou killest a bee; if thou givest to other than such, thou preservest a drone.—Charles Macfarlane.

## CONVALESCENTS

Those Recovering from Any Severe Illness

After a long wasting illness, convalescents require nourishing food that will not overtax the digestive functions—and in the way of a strength-restoring and vitality-making tonic, we know of nothing that equals Vinol, our delicious cod liver and iron tonic (without oil).

Vinol creates an appetite, re-establishes good digestion and helps the daily food to make rich blood, form flesh, strong muscles and impart new life and vitality to every organ in the body. We ask those who need a strength and flesh-building tonic restorative to call at our store and get a bottle of Vinol, with the understanding that if it does not help them we will refund their money without question.

er. Raoul arrived silent and gloomy. The scene was a very short one. Philippe handed his brother a copy of the Epique and said:

"Read that!"

The viscount read: "The latest news in the Faubourg is that there is a promise of marriage between Mlle. Christine Daae, the opera-singer, and M. le Vicomte Raoul de Chagny. If the gossip are to be credited, Count Philippe has sworn that, for the first time on record, the Chagnys shall not keep their promise. But, as love is all-powerful, at the opera—and even more than—elsewhere, we wonder how Count Philippe intends to prevent the viscount, his brother, from leading the new Marguerite to the altar. The two brothers are said to adore each other; but the count is curiously mistaken if he imagines that brotherly love will triumph over love pure and simple."

"You see, Raoul," said the count, "you are making me ridiculous! That little girl has turned your head with her ghost-stories!"

The viscount had evidently repeated Christine's narrative to his brother, during the night. All that he now said was:

"Good-by, Philippe."

"Have you quite made up your mind? Are you going tonight? With her?"

No reply.

"Surely you will not do anything so foolish? I shall know how to prevent you!"

"Good-by, Philippe," said the viscount again and left the room.

This scene was described to the examining-magistrate by the count himself, who did not see Raoul again until that evening, at the opera, a few minutes before Christine's disappearance.

Raoul, in fact, devoted the whole day to his preparations for the flight. The horses, the carriage, the coachman, the provisions, the luggage, the money required for the journey, the road to be taken, he had resolved not to go by train, so as to throw the ghost off the scent; all this had to be settled and provided for; and it occupied him until nine o'clock at night.

At nine o'clock, a sort of traveling-bureau with the curtains of its windows drawn down, took its place in the rank on the Rotonde side. It was drawn by two powerful horses driven by a coachman whose face was almost concealed in the long folds of a muffer. In front of this traveling-carriage were three broughams, belonging respectively to Carlotta, who had suddenly returned to Paris, to Sorell and to the head of the rank, to Count Philippe de Chagny. No one left the brougham. The coachman remained on his box, and the three other coachmen remained on theirs.

A shadow in a long black cloak and a soft black felt hat passed along the pavement between the Rotonde and the carriages, examined the brougham carefully, went up to the horses and the coachman and then moved away without saying a word. The magistrate afterward believed that this shadow was that of the Vicomte Raoul de Chagny; but I do not agree, seeing that that evening, as every evening, the Vicomte de Chagny was wearing a tall hat, which hat, besides, was subsequently found. I am more inclined to think that the shadow was that of the ghost, who knew all about the whole affair, as the reader will soon perceive.

They were giving Faust, as it happened, before a splendid house. The Faubourg was magnificently represented; and the paragraph in that morning's Epique had already predicted its effect, for all eyes were turned to the box in which Count Philippe sat alone, apparently in a very indifferent and careless frame of mind. The feminine element in the brilliant audience seemed curiously puzzled; and the viscount's absence gave rise to any amount of whispering behind the fans. Christine Daae met with a rather cold reception. That special audience could not forgive her for aiming so high.

The singer noticed this unfavorable attitude of a portion of the house and was confused by it.

The regular frequenters of the opera, who pretended to know the truth about the viscount's love-story, exchanged significant smiles at certain passages in Marguerite's part; and they made a show of turning and looking at Philippe de Chagny's box when Christine sang:

I wish I could but know who was he that addressed me, if he were noble, or, at least, what his name is.

The count sat with his chin on his hand and seemed to pay no attention to those manifestations. He kept his eyes fixed on the stage; but his thoughts appeared to be far away.

Christine lost her self-assurance more and more. She trembled. She felt on the verge of a breakdown.

Carolus Fonta wondered if she was ill, if she could keep the stage until the end of the Garden Act. In the front of the house, people remembered the catastrophe that had befallen Carlotta at the end of that act and the historic "co-ack" which had momentarily interrupted her career in Paris.

Just then, Carlotta made her entrance in a box facing the stage, a sensational entrance. Poor Christine raised her eyes upon this fresh subject of excitement. She recognized her rival. She thought she saw a sneer on her lips. That saved her. She forgot everything, in order to triumph once more.

From that moment the prima donna sang with all her heart and soul. She tried to surpass all that she had done till then; and she succeeded. In the last act when she began the invocation to the angels, she made all the members of the audience feel as though they too had wings.

In the center of the amphitheater a man stood up and remained standing, facing the singer. It was Raoul. Holy angel, in heaven blessed . . .

And Christine, her arms outstretched, her throat filled with music, the glory of her hair falling over her bare shoulders, uttered the divine cry: My spirit longs with thee to rest!

It was at that moment that the stage was suddenly plunged in darkness.

It happened so quickly that the spectators hardly had time to utter a sound of stupefaction, for the gas at once lit up the stage again. But Christine Daae was no longer there!

What had become of her? What was that miracle? All exchanged glances without understanding, and the excitement at once reached its height. Nor was the tension any less great on the stage itself. Men rushed from the wings to the spot where Christine had been singing that very instant. The performance was interrupted amid the greatest disorder. . . .
